\*If a student does not meet the GPA gate requirements at any point in the program s/he is dropped from the Teacher Education Program until the requirement is met for readmission. If a student does not meet the disposition gate requirements s/he is notified and a warning is issued. A student will be dropped based on the disposition gate requirements when three notifications have been issued. However, if a disposition problem is severe, a committee will meet to determine appropriate actions to be taken, i.e., remediation, removal from the program, etc. A severe problem indicates a situation in which it is necessary to bring in a third person for consultation.
