WOMEN'S AND GENDER STUDIES MAJOR
32-35 credit hours required

Women's and Gender Studies is a field that examines the historical construction and perpetuation of asymmetrical sex and gender systems, as well as their relationships to other systems of power. It explores the ways in which gender intersects with our personal identities, social arrangements, economic and political systems, and our ways of knowing and understanding the world.

Women's and Gender Studies is a multidisciplinary program that offers a major with course offerings from fifteen departments in the School of Arts and Sciences, The Crane School of Music, and the School of Education and Professional Studies. It also offers an interdisciplinary Women's and Gender Studies minor.

Women's & Gender Studies
Major Requirements:

The Women's and Gender Studies major has four core requirements: (1) Foundation course, (2) Research methods (3) Feminist theory, and (4) Senior Seminar. In addition, students take one course from four different disciplinary perspectives: **a)Historical, b)Social-Political, c)Artistic-Literary, and d)Science-Health perspective.** Two additional W&GS electives are required as well (see website for elective listings). This interdisciplinary approach provides students with knowledge of key academic debates across the disciplines that frame the field of Women's and Gender Studies.
