

# CAREER PLANNING ∞ ANNUAL REPORT CLASS of 2010

Career Planning • SUNY Potsdam, Potsdam, NY  
315-267-2344 [www.potsdam.edu/career](http://www.potsdam.edu/career)

**Graduation Dates:** This 2010 Annual Report includes information from graduates completing degrees on four graduation dates: August 2009, December 2009, May 2010, and August 2010. Past reports have only included three graduation dates: August and December of the same year and May of the following year.

Since May and August graduates of the same year are able to attend formal commencement ceremonies together we wish to include them together in the same cohort year for this report and future reports.

**Survey method and schedule:** The survey was conducted four times. The first survey was distributed in person in May 2010 as students picked up their caps and gowns for graduation. The next two attempts to collect information were made using first-class mailings in November 2010 and February 2011. Phone calls were made to graduates in late spring 2011.

The August 2010 graduates were added to the cohort after the two first class mailings. They were surveyed three times. In May 2010 as they picked up their caps and gowns, and via e-mail in August 2011 and October 2011.

**Report Reliability:** The following two conditions relating to students completing the survey affect the reliability of this report: 1) We are more likely to receive surveys from employed graduates. We expect that students who don't have employment will not respond to the survey. (To further assist unemployed students, we included information about our specific employment related services with the mailed survey). 2) The survey is more likely to be returned from unemployed graduates living at home. We mail surveys to the home address on file. Employed graduates are more likely to have moved away from home and we do not have their forwarding addresses.

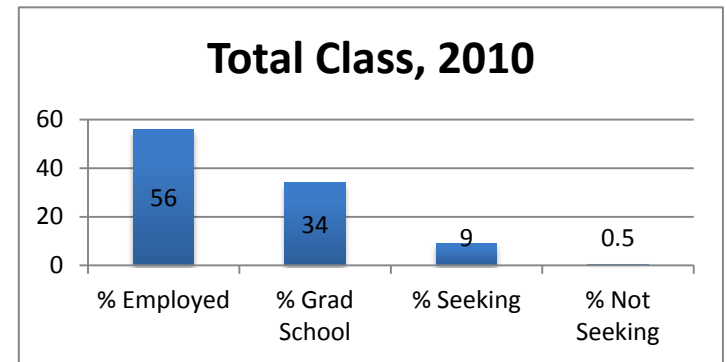

We cannot determine the influence of these conditions on this survey. We hope that they balance out, giving us an accurate picture and cancel out any skewed data.

**Statistical Base:** The "number of graduates" for each major may not include some students who graduated late (incomplete grades, etc). Graduates are counted in their first major only, with the exception of Secondary Education. Secondary Education students are listed in their content area major and in their Secondary Education major. All returns, large or small, are included to keep the format consistent. We realize that percentages are of limited value where the respondent base is small.

**Distribution of survey Responses:** After this report is completed the original survey returns are sent to the Alumni Office for use in updating their records.

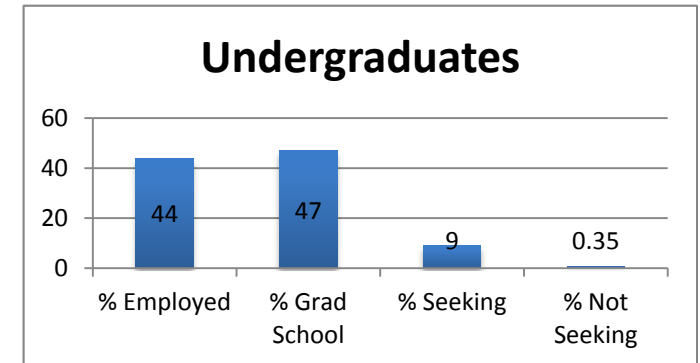

## Total Class, 2010

# of Graduates	<b>1181</b>	# Responding to Survey	<b>411</b>	% Responding	<b>35%</b>
Distribution of Survey Respondents					
Number Employed	232 <b>[56%]</b>	Not Yet Employed	39 <b>[9%]</b>
