December 21st is the day that WINTER officially begins. Teachers will be taking the children outside to play in the fresh air and sunshine whenever the weather permits. So, it is very important to protect your child with a supply of warm clothing: HAT, SCARF, MITTENS (or gloves), SNOWPANTS (or snowsuit), JACKET, and BOOTS. Also, it is a good idea to always have another set of spare clothing (underwear, socks, pants and shirt) in case your child’s clothes become wet or soiled during daily activities.
