**www.childtrends.org/videos/technoference/** This video
shares results of a study of how internet devices are
creating a disconnect in relationships between parents and
their children (ages birth through 5), otherwise known as
“technoference”, causing problem behaviors, hyperactivity,
and crying. The creation of tech-free zones or times, such as
mealtime and bedtime, are suggested to control excess use.

Preschool 4 visited several points of interest on
Campus exploring careers and community helpers.
They began with the Commissary in Bowman Hall,
then visited University Police, made pizza and
enjoyed ice cream in the Barrington Student Union.
The last trip was a visit to Student Health Services
where they gave a check-up to their plush “babies”.
Dr. Page Quinton and Roberta Greene (Geology)
visited the class to present a unit on rocks and
fossils. Also, Dr. Rob Ewy (Biology) has presented
