Technology Educator Concentration
within MSEd Curriculum and Instruction

Education today involves complex learning environments that involve digital tools and materials. It is critical that teachers have the skills and access to resources needed to provide an effective 21st Century education for their students. The courses in this focus area provide a foundation from which teachers can build and facilitate high quality learning environments for their students.

*The courses in this program include:
- Desktop Publishing
- Technology in Education
- Teaching and Learning with Simulations and Games
- Preparing and Delivering Professional Presentations

*Coursework subject to change and changes in availability per semester.
