This Spring at the LTEC

You may notice that this Newsletter is a bit shorter! As all deadlines and guidelines for awards have not changed, and the calendar is attached, I chose to give a brief summary and wait for the summer to give an account of what has gone on this year, fall and spring together.

The deadlines are repeated for the Facul-TE and Fellows award applications. Recall that the Technology Professional Development Award has a rolling deadline.

The spring semester is packed with events, pedagogy and technology. The first two will occur even before you get this newsletter! Join me for topics as diverse as Teaching Resources and Understanding HTML for Online Instructors.

The Calendar of LTEC events is attached. Be sure to periodically check our web site for the latest information, and watch for my weekly messages.
