Pete’s Place Billiards League Rules

Matches

1. A match consists of three one-on-one games. The match is considered won by the player who wins the majority of games.
2. All three games must be played even if one player wins the first two games.
3. Players will be assigned opponents for each week of the league. It is the responsibility of the first player listed to contact their opponent to set up the match date and time. (Ex: 1-2, Player #1 will contact Player #2).
4. Players must notify Pete’s Place employee to signal when a match has begun. You may be required to show your school ID to Pete’s staff before the match. When a match is completed, players must notify employee of the results.
5. Should the results of a match be in contention, the match is considered void. Players may choose to forfeit or contact league director to oversee a new match. Failure to do either results in a one (1) point deduction for both players.

Points

1. When a player wins a game, one (1) point is scored. Each match consists of three games, so the total number of points a player may score in any given match is three (3).
2. Should a player forfeit a match, their point total remains the same. Their opponent is credited two (2) points.
3. Failure to contact an opponent to initiate a match, or to respond to an opponent’s contact attempts, will result in a two (2) point deduction. A player who attempts to set a match with an opponent but the opponent does not respond is considered the winner of the match and is awarded two (2) points. Attempts to contact must be verified by Pete’s staff before deductions or points are awarded.

Forfeits

1. A player may forfeit a match any time before a match has begun. Player must notify their opponent prior to match. Opponent will be accredited two (2) points and considered winner of the match.
2. Once a match has begun a player may forfeit individual games. When a forfeit is declared, player’s opponent is considered the winner of each remaining game and gains a point for each.
3. Should neither player begin any given match and do not contact the league director, then it is considered a forfeit for both players and each is given a one (1) point deduction.

Schedule

1. The league will consist of nine weeks of play. An additional week is set for semifinal and championship matches.
2. During general league weeks, players will be assigned one opponent for each week and games should be completed within that week.
3. If you are unable to play your match during the appropriate week please make it up as soon as possible.
