The Biology Department’s WISER Center and ALCOA corporation present:
Forest invaders, emerging disease, and pollinator conservation: branching out - making a difference

Presented by:
Melissa K. Fierke, Ph.D.
Department of Environmental &
Forest Biology
SUNY College of Environmental
Science and Forestry

Melissa Fierke, Director of the Cranberry Lake Biological Station, has studied forest invasive species like Emerald Ash Borer. Come hear how her lab is “branching” out into new tick/Lyme disease and pollinator research

The Biology Seminar Series
April 5th, 2017
@ 12 PM
Stowell 211
