LAW ENFORCEMENT TRAINING INSTITUTE

Due to state law, I understand that there are components of New York's Basic Police Training Course that I cannot be certified in until I am officially hired and that is: Firearms, Baton, Basic Observations & Suspicious Activity Recognition, Reality Based Training, Active Shooter, and 160 hours of Field Training Orientation. *(Although in this academy, the Director does train all his cadets in Baton, Basic Observations & Suspicious Activity Recognition, Reality Based Training, and Active Shooter. However, the state doesn't recognize those components as being completed by Pre-Employment cadets, as the state's prerequisite is only hired officers gain those certifications. This means, if hired by a N.Y. Municipal Police Agency, you would have to take these components again. But there is value in being overly trained in those certain safety tactics).* **I understand that about 95% of the training I will be receiving is referred to by New York State as Phase 1 and that the remaining components (about 5%), that is allowed only to hired Municipal Police Officers is referred to as Phase 2.**

I understand that there are hundreds of possible "specialty topic" courses like Sniper, DARE, Bike Patrol, Interrogation, Photography, etc. that are not mandated to be part of a Basic Police Training in New York and it is up to the hiring agencies to either send or not send their officers to any of these courses during their careers. Three of those such courses are Breathalyzer, Radar and Taser. I understand these are also considered "specialty topic" courses as mentioned above and are not part of a Phase 1 academy. I understand that any of these "specialty topic" courses may be added to any Phase 2 should any Police Academy Director opt to do so. *(This academy's Director adds Radar and Taser and allows Pre-Employment to participate in the Taser training, however the state only allows the hired officers to be certified in Taser).*

I understand that my Phase 1 Training is 100% valid for 2-years from the day I graduate from college, at which point should I be hired by a Municipal Police Agency, I would only need to finish phase 2. I also understand that is each agencies option as to using a Phase 1 or opting to send their new hire back through their own full academy. I understand that should I be hired by a Municipal Police Agency wanting to use my police training 2 years after college graduation but before 10 years of college graduation, that I would have to take a police refresher course of about 100 hours to update my certification. (Phase 2 is generally all scheduled and paid for by the hiring agency and can be completed at any police academy in New York).

I understand that only hired police officers who completed both Phase 1 and Phase 2 are awarded police certificates. And should I successfully finish Phase 1, my stamped College Transcript is my New York State legal document attesting to that fact. Upon completion of a phase 2, in which I can take anywhere in New York State, I will then receive a Police Certificate from the New York State Division of Criminal Justice / Office of Public Safety.
