DEPARTMENT OF **HISTORY**

Comprehensive Departmental Brochure

Last Revised: 4/28/25

What is History?

- People who study history are called Historians.
- Historians seek to understand why and how events happened, and the meanings people made, and make, out of the experiences of the past. Historians study the causes and effects of historical events in order to understand past and present connections between societies, individuals, humans and the world around us, and more. Learning about the past not only helps us understand the present, it also helps us make informed decisions today and in the future, when we face similar choices or circumstances.
- If you enjoy solving mysteries, understanding the past and the present, and want to build key career competencies including research, writing, and critical thinking skills, then the Department of History may be where you find your niche.
