Peer Reviewers will review each item identified in the guide, *Verification of Compliance with Accreditation-Relevant Regulations* along with the institution’s report on the same and document their findings in the appropriate spaces below. Reviewers should expect institutions to address these requirements with brief narrative responses and provide supporting documentation, where necessary. If the reviewer finds in the course of this review that there are substantive issues related to the institution’s ability to fulfill the accreditation relevant federal requirements, such issues should be raised below in appropriate sections and will be addressed in the team visit or PRR Review process.

In response to this, it is assumed that the institution will provide documentation of policies and procedures that are (1) in writing, (2) approved and administered through applicable institutional processes, and (3) published and accessible to those affected.

In the event that one or more of these regulations do not apply to an institution, that institution shall indicate that fact in the compliance document. Otherwise, all accredited and candidate institutions must respond with regard to each of the areas.

Reports must be filed in the Commission office according to the dates below:
