### GUIDELINES

1. Help is available for: **Math 100, Math 101, Math 102, Math 125, Math 141, Math 151, and Math 152**
2. To help you in your quest to learn mathematics, please do not ask us to do your homework problems and/or test/exam corrections.
3. We will be happy to help you understand and/or solve similar problems. At times, it may be necessary for us to refer to your textbook. This helps to refresh our memories (remember we are also students) and it enables us to show you how to find necessary information in your book. This is a crucial skill for success in mathematics!
4. Please realize that the math lab is open for all SUNY Potsdam students on a walk-in basis, thus it may or may not be full when you arrive for help. Considering this, plan accordingly and please do not wait until the last possible minute to get help.
5. If you have any suggestions/concerns please contact Dr. Miller at 267-2063, in her office MacVicar 219, or by email at [millercc@potsteam.edu](mailto:millercc@potsteam.edu)
