

# CAREER STATUS REPORT

## CLASS of 2014

Career Planning • SUNY Potsdam, Potsdam, NY  
315-267-2344 [www.potsdam.edu/career](http://www.potsdam.edu/career)

**Graduation Dates:** This 2014 Career Status Report includes information from graduates completing degrees on four graduation dates: December 2013, January 2014, May 2014, and August 2014. Since all of these graduates are eligible to attend formal commencement ceremonies together in May, we have included them together in the same cohort.

**Survey Method and Schedule:** The surveys were conducted using seven methods/sources: In-person, e-mail, Facebook, postal mail, SUNY Potsdam's Institutional Research & Assessment office data, SUNY Potsdam's graduate school enrollment information from Banner, and phone calls. The survey was distributed in person in April and May 2013 at Grad Finale as students picked up their caps and gowns for graduation. E-mails were sent September 2014, April 2015, and May 2015. First-class mailings were sent in November 2014 and February 2015. Phone calls and Facebook searches were made during March and April 2015. SUNY Potsdam's graduate school enrollment information was collected in October 2014 and SUNY Potsdam's Institutional Research & Assessment graduate school enrollment data was reviewed in April 2015.

**Report Reliability:** The following two possibilities relating to students completing the survey affect the reliability of this report: 1) We believe that we are more likely to receive surveys from employed graduates. We expect that students who don't have employment are less likely to respond to the survey. (To further assist unemployed students, we included information about our specific employment related services with the mailed surveys). 2) We also believe the survey is more likely to be returned from unemployed graduates living at home. We mail surveys to the home address on file. Employed graduates are more likely to have moved away from home and we do not have their forwarding addresses. We cannot determine the influence of these possibilities on this survey. We hope that they balance out, giving us an accurate picture and canceling out any skewed data.

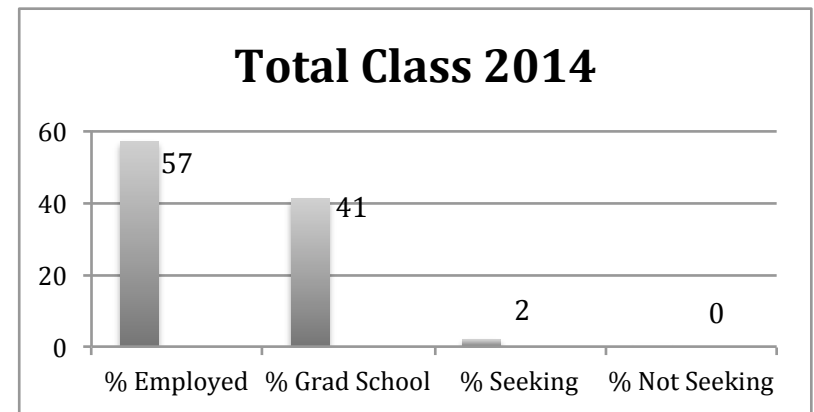

**Statistical Base:** Total numbers are based on a report generated from the Registrar's Office as of a specific date. Students who graduate later than that date (perhaps due to incomplete grades, holds, etc.) are not included in the cohort. Graduates are counted in their first major only with the exception of Education students. These students are counted in their content area major and in their Education major. Also, if a student earns more than one degree (some students earn a bachelors and a masters at the same time) they are counted in each degree. All returns, large or small, are included to keep the format consistent. We realize that percentages are of limited value where the respondent base is small.

**Distribution of Survey Responses:** After this report is completed, the original survey returns are sent to the Alumni Office.

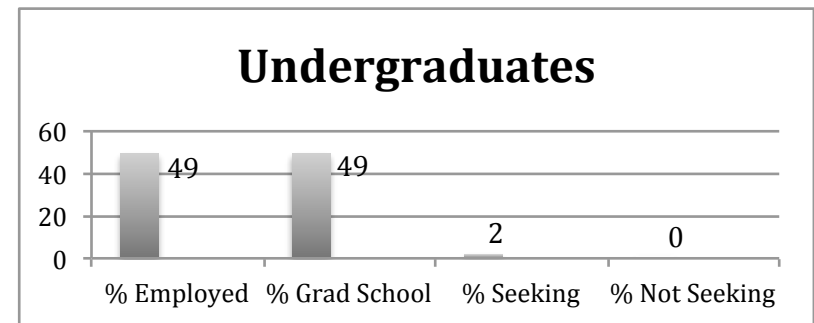

**Report Contents:** The report includes a summary page, a historical perspective, survey results within each school by major, employment/graduate school attendance information, salary information, and Career Planning Services for 2013-2014.

**Salary Information:** Thirty-two percent of the employed respondents provided a salary figure. Sixty percent of the responses reported a salary greater than or equal to thirty thousand dollars. Thirty-seven percent reported a salary greater than or equal to forty thousand dollars.

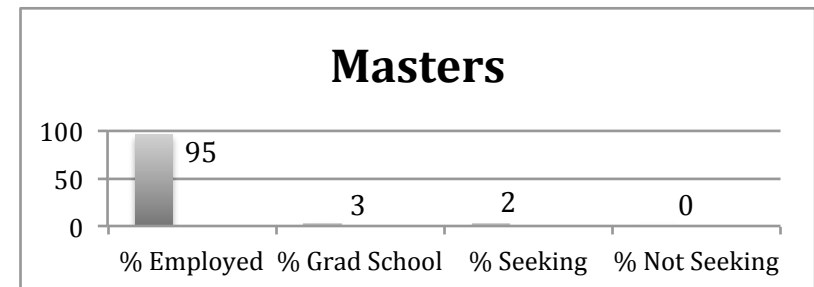

<b>2014 Total Class</b>			
# of Graduates = <b>906</b>		# Responding to Survey = <b>538</b> % Responding = <b>59%</b>

**SUMMARY OF SERVICES FOR 2013-2014 YEAR**

**RECORDED SERVICES**

These are either individual (in person or electronic) or group services given by the Director, Assistant Director, Counselors or Student Intern. Group services include attendance at workshops/presentations/events. Student Intern gave only presentations about office services. In these cases, the participant's name, class, major, and type of service given are recorded. More than one service may be provided during a session.

**SERVICES BY TYPE 2013-2014**

<u>Type of Services</u>	<u># of Services</u>	<u>% of this Type</u>
Resumes/Letters	1,155	15.9%
Career Selection	428	6.0%

Other	83	1.1%
Total	7,255	100%

*\*Includes Student Intern presentations on office services.*

**SERVICES BY POPULATION 2013-14**

Individual services are provided in person or electronically. Group services include attendance at workshops/presentations/events. We continually encourage underclass students to use our services, as career planning takes extensive time and effort. If we can increase the number of services used by underclassmen, students will be on target in their career planning by their senior year.

## Career Planning 2013-2014 Highlights

We enhanced the value of the undergraduate experience and the cohesiveness of the campus community by providing: 57 (54% increase over last year) classroom presentations; 56 (49% increase over last year) campus non-classroom presentations; and designing/revising/ and administering/co-administering 25 special career-planning programs. This is the highest number of presentations this office has given in 33 years! The 25 special programs included: “A Major Affair”; Teacher Recruitment Days; Graduate School Fair; Job Expo; Kaplan Mock Graduate Exams; Mock Interviews with Anthropology, Community Health (2 classes), and Environmental Studies; Law Enforcement Career Day; BearTracker Resume Packets; Student Teacher Resume Critiques; Graduate Student Resume Critiques; Faculty Positive Impact Cards; CSTEP Career Development Class FOCUS Assignments; Sophomore Scoop; Computer Science Panel and Networking Event; Grad Finale; Faculty Department Collaboration Cupcakes; Skype Interviewing Resources; Part-Time Local Job Promotions ; Career Planning Course; On-Campus Student Job Postings; Undeclared Open House Panel; New York State Government Jobs; Graduate Studies Webinars; 50 Jobs in 50 States; and the Leadership Capstone Program.

We provided 1,539 individual (office/e-mail) career-counseling consultations and presented to 4,534 students/parents in group sessions The events included in this number are: A Major Affair, Job Expo, Graduate School Fair, Part-time Local Job Promotion, Teacher Recruitment Days, Grad Finale, Computer Science Panel and Networking Event, Open-House Undeclared Panels, and Parent Orientations. The appointments and presentations covered 15 different types of career services (resume/letters, career selection, job search techniques, references, summer job/career experience, interviewing techniques, graduate school, academic topics, internships, portfolios, applications, office services, self-marketing brochures, and more). This is the fifth year we provided daily walk-in services, where students can see a professional without an appointment. Students actively utilized our walk-in option.

We continued to collaborate on a number of projects with the academic community. We continued our Collaborative Cupcakes of the Month Departmental Award Program. The campus department that had multiple interactions with us during each month received cupcakes and a certificate of appreciation. We conducted mock interviews with all students in four classes (two Community Health, Anthropology, and Environmental Studies). We collaborated with the Teacher Education Department with revising a resume rubric, PowerPoint, sample resumes for their website and the resume critiquing process. We critiqued 253 (Fall 2013, Spring 2014, and Summer 2014) student teachers resumes and ensured they received at least a 90% on the resume rubric before submitting their student teaching application materials. We implemented the Grad Finale with seven other campus departments. We collected 446 career status surveys at this event. We presented at the third Sophomore Scoop program with seven other campus departments. We collaborated with the Graduate Studies staff to produce 4 webinars. We co-sponsored with the Development and the Experiential Education Offices to bring career presenters to campus. We co-sponsored an employer program with the Computer Science Department. We assisted the English Department with career selection and resume writing workshops, and advertising and making arrangements for a Job Writing Sample Workshop. We worked with the Admissions Office and 3 other campus departments to design and implement an Undeclared Major Panel Program for all Admission Open Houses. We provided individual resume critiques and mock interviews for the Leadership Capstone Program. We advised all students in the CSTEP Career Development Classes on career and major selections. We continued for the second year to work with all departments posting student work-study and assistant positions into BearTracker.

We co-administered, with Office of Residence Life, a successful Major Affair program. The goal of this program was to provide a one-stop-shop where students could obtain academic and career information for all SUNY Potsdam majors/minors and get an opportunity to network with faculty. The program focused on freshmen, undeclared students and those students looking to change their majors. All academic departments were represented. *Three hundred and ninety* students attended. *Ninety-Four percent* of the students recommended this program to other students. *One hundred percent* of the faculty gave this program a 4 or a 5 on a scale of 1-5 with 5 the highest.

This is the fourth year that we planned and implemented a campus Graduate and Professional School Day with area colleges. We consulted with St. Lawrence University, Clarkson University and SUNY Plattsburgh, and agreed to hold our Graduate and Professional School Days on consecutive days/times in hopes of increasing interest and attendance by graduate school representatives. *SUNY Potsdam's Graduate School Fair had the highest student attendance (342) and highest number of universities attending (83) since 2008.* The event evaluations received positive feedback from the graduate school representatives and the students who attended. Ninety-three percent of the students agreed or strongly agreed on the following: the Graduate School Fair was helpful, increased their understanding of the graduate school admissions process, and helped to expose them to a variety of diverse graduate programs. This event also created an *opportunity for SUNY Potsdam to showcase their graduate programs* and to recruit students.

This is the second year that we participated in SUNY Potsdam's Human Resources office shared services initiative with SUNY Canton by taking on the responsibility of on-campus student job postings. This involved collaborating with Human Resources and Financial Aid staff to: design a new process, advertise the process, develop training materials, and provide training to staff/faculty. Faculty/staff posted 97 work-study, student assistant or graduate assistant positions.

Our employer activities included: posting 1,033 part-time, full-time and summer positions on BearTracker (*an increase of 31% over last year*); sending 88 resume packets to employers; creating 37 special flyers and e-mails to advertise employer events or jobs; scheduling 47 employers for visits to our campus (27 for Job Expo, 10 for Law Enforcement Days, 4 for Computer Science Panel, and 7 individual visits). We held a very successful Part-Time Local Job Promotion Event. This event involved visiting 20 local employers, advertising our employer services to these employers, collecting and advertising part-time openings from 23 employers, and 275 students receiving this promotion.

Erin Wilson, Counselor, taught the FY 215 Career Development Course in the Fall 2013 semester. The class was a 1-credit class that met once a week for 50 minutes. There were 15 students in the class. It was designed to assist students in the career selection process and included topics such as : self-assessment, career research, informational interviews, gaining career related experience, job searching, and resume development.

Students are taking advantage of our on-line services/computer equipment. Nearly half of our appointments/contacts were done via email. *Two thousand three hundred and thirty four* students/alumni utilized BearTracker database for a total of 8, 518 times for job and internship searches. FOCUS, an online career selection system had 180 users and was used 475 times. The Career Planning webpage continues to be highly utilized. We continued our initiative called “Skype + Career Planning = Success” where we promoted the use of our new resources (laptop, camera, microphone and conference room sign out) to conduct interviews with employers. This service was utilized 20 times for both phone/Skype interviews for employment or graduate school. Students continued to utilize our Resource Room computers/printer to produce resumes, portfolios, business cards, self-marketing brochures, cover letters, and job search. Our Facebook Group Page had 228 members and is primarily used to promote our events and services.

Our Teacher Recruitment Days Job Fair (TRD) program enhanced the institutional relationships with school systems throughout the United States. This event was co-administered by Central New York Career Development Association (CNY CDA), which consists of 13 higher education institutions in Central New York. SUNY Potsdam Career Planning Staff members were responsible for staffing the event. *53 School districts (109 Recruiters) and 280* students attended the event receiving a total of 1,538 interviews. (This is the highest number of interviews conducted in the past 5 years). *34* SUNY Potsdam students attended and participated in *206 interviews (averaging 6 per person)*.

Many hours were spent this year on developing a Career Services/Experiential Education Offices Student Fee Proposal. The SGA Assembly, SGA Senate and the Campus President's Council approved this proposal. This proposal was included in the campus-wide five year plan for student-funding fees proposal that was submitted to SUNY Central for approval.

We enhanced the recognition of the college as a key contributor to campus, the region and state through our involvement in 16 committees/advisory board and community service programs. Our involvement included, but was not limited to: serving on campus committees, special task forces (Greek Life Task Force, Task Force on Entrepreneurship, and Start-Up New York), professional association committees, giving school and community presentations, serving as Advisor for Circle K and Alpha Sigma Tau Sorority.
