Student Learning Outcomes Assessment Plan
(Revised 03/01/2013)

Department/Program Name: Art Department – Art Studio

Date Submitted: Fall 2016

Academic Year this plan will take effect: AY 2016-2017

Department/Program Mission Statement:

ART DEPARTMENT MISSION

The mission of the Art Department at SUNY Potsdam is to provide students with a rigorous education in the visual arts while remaining a vibrant part of the college's high quality liberal arts education. The department recognizes a responsibility to studio and art history majors, who are preparing for careers in the visual arts, as well as to non-majors who want to gain an appreciation and personal understanding of the artistic culture in society. Aware of its role as a transmitter of knowledge, a proponent of artistic culture and a creator of art, the Art Department seeks to impart technical, analytical, and critical tools that will serve as resources and will provide lifelong value to the individual.

The goals of the Art Department are:

1. To assist in the development of **critical self-assessment**, using studio critiques and research projects in which students learn to critically assess what they see, defend their views, and recognize fallacies in arguments and reasoning.
2. To provide students with ways and means to **critically interpret and analyze** by researching, discussing, and reflecting on works of art, their history, and their context.
3. To encourage **intellectual and emotional self expression** concurrent with the growth of knowledge, in order that students recognize and apply the theories they have learned in the context of modern society.
4. To help students develop **technical skills** in a broad array of art historical and studio methodologies so as to enable students to achieve high quality results in research, writing, and the creation of self expressive works of art.
5. To provide students with the knowledge and skills to understand and realize visual form through instruction, critique, research and sound studio practice.
6. To provide **historical perspective** to all students concerning the development of art and architecture from antiquity to the present day, as a core resource to all art majors and liberal arts students providing a sense of historical continuity and developing cross cultural awareness.

The Art Department offers five majors, in Art History, Art Studio, Visual Arts (B.F.A.), Graphic Design and Media Arts (B.A. and B.F.A.), and three minors, in Art History, Art Studio, and Museum Studies. Art Studio majors may complete concentrations in General Studio, Ceramics, Painting, Photography, Printmaking, and Sculpture. To ensure adequate diversity and scope, a balance of courses in all areas is required. Art Studio and Graphic Design majors may also obtain art teacher certification by

completing an Art Education Program in collaboration with St. Lawrence University. Numerous related minors are also available, in such fields as Archaeology, Arts Management, Classical Studies, Journalism, and Pre-Creative Arts Therapy.

Bachelor of Arts in Art Studio Mission Statement

The Bachelor of Arts in Art Studio aims to develop personal expression in image-making, aesthetic and conceptual understanding, and critical and analytical skills as well as basic research and oral and written communication skills. It serves students who plan a career in art such as art education, art therapy, or other arts-related areas. It also prepares students interested in pursuing other careers that require broad studio, writing and analytical skills, as well as those who seek a liberal arts education primarily as a source of educational enrichments and personal enjoyment.
