State University of New York at Potsdam (SUNY Potsdam)

Campus Bodily Fluid Clean-up Response

Bodily Fluid:

Any fluid in the body or secretion of the body including blood, urine, feces, sputum, salvia & vomit.

<u>NOTE</u>: Universal Precautions is an approach to infection control. According to the concept of Universal Precautions, all human blood and certain human body fluids are treated as if known to be infectious for HIV, HBV, and other blood borne pathogens.

Universal precautions shall be observed to prevent contact with blood or other potentially infectious materials. Under circumstances in which differentiation between body fluid types is difficult or impossible, all body fluids shall be considered potentially infectious materials.

1st Shift

AC/RD/RA to contact Residence Life

2nd Shift

AC/RD/RA to contact Heating Plant/UP

(1st Shift) Residence Life to notify Heating Plant; Heating Plant to notify Custodial Supervisor (2nd Shift) Heating Plant to notify Custodial Supervisor

Universal Precautions to be followed; Custodial Staff to manage Bodily Fluid clean-up and ensure the area has been thoroughly cleaned & disinfected.
