

SUNY Potsdam
Student Learning Outcomes Assessment Plan – Theatre Program

Department Name: Theatre and Dance

Date Submitted and Academic Year: Dec. 2010 for 2010-2011

Department Mission Statement:

The mission of the Department of Theatre and Dance is grounded in the development of its students—intellectually, artistically, and personally—within a community that honors the mind, body, and spirit of all individuals.

Specifically, the department strives to:

1) Provide undergraduate Majors and Minors in the fields of Theatre and Dance for those students seeking to develop careers in the disciplines, whether as performers, directors, choreographers, teachers & educators, administrators & managers or advocates.

We seek to support these ambitions by providing courses and experiences in acting, dance technique, performance, directing, dance composition, production, technical theatre & scenic design, dance & theatre history and theory, dramatic literature, and dance & theatre education.

2) Be an integral part of the SUNY Potsdam Liberal Arts educational process by fostering an understanding of theatre and dance through our extensive production programs and general education contributions.

- *It is through productions and general education courses that students become familiar with the depth and range of dramatic literature, its historical context & cultural underpinnings, and its social and communicative value.*

- *It is also through our production programming that students and members of the college community become familiar with the various and evolving choreographic concerns, genres & histories of dance, as well as the social and cultural issues contextualized through dance.*

- *It is the means by which our students—through their work with faculty, guest artists, and each other—put into practice the skills they must learn as practitioners of these two professions.*

3) Bring professional theatre and dance performances, in the form of guest artist residencies, to the SUNY Potsdam campus.

We are committed to this effort because (a) it is important to provide our students with models of, and experiences with artistic excellence and (b) it is important to provide the campus and local communities with opportunities for cultural and aesthetic enrichment in the performing arts.
