Disciplined Inquiry in Education Seminar Series

September 7, 2022/Noon-1:00 p.m. Literacy Center Balcony

Sergei Abramovich

Department of Elementary Education

Can mathematics be appealing to those who want to teach PK-6?

Abstract. The presenter intends answering this question in affirmative by reflecting on his participation in two meetings with high school seniors organized by the Admissions Department of SUNY Potsdam this past spring under the umbrella "Accepted Student Days." The goal of the meetings (as well as of this presentation) was (is) to show a friendly face of mathematics using counting, action learning, and common sense.
