

SUNY Potsdam First Destination 2018

Career Services
Lougheed Center for Applied Learning

Career Status Report | Class of 2018

Career Services within the Lougheed Center for Applied Learning has conducted our annual First Destination Survey for the class of 2018, with data collection from alumni within approximately six months to one year after commencement. The survey data gathered demonstrates graduates' employment status and graduate or professional school enrollment. The Career Status Report is designed to reflect the uniqueness of SUNY Potsdam, and follows the National Association for Colleges and Employers (NACE) First-Destination survey standards and protocols.

The purpose of this survey is to demonstrate to current and prospective students the employment and continuing education accomplishments of SUNY Potsdam's graduates. This data will also support academic departments and administrators to better understand the areas of campus growth and potential.

In February-March 2018, Career Services have also undergone Institutional Research Board review. These transitions have delayed our data collection at our Grad Finale event, resulting in a low response rate and potential variance in data quality.

Methods

The survey encompasses alumni who graduated in Fall 2017, Winterim 2018, Spring 2018 and Summer 2018. Graduates were asked to complete the survey via email, where a total of seven reminders have been circulated between March-November of 2018. The survey was also distributed in person in March 2018 at the "Grad Finale" as students received their caps and gowns for graduation. Due to a delay in IRB approval, we were unable to capture data from the majority of event attendees. For this year's survey, we included LinkedIn as a knowledge rate, in compliance with the National Association of Colleges and Employers (NACE) standards. SUNY Potsdam's Institutional Research & Assessment Clearing House data for graduate school enrollment was reviewed in April 2019.

Report Reliability: The following two possibilities relating to students completing the survey may affect the reliability of this report: 1) We believe that we are more likely to receive surveys from employed graduates, and we expect that students who do not have employment are less likely to respond to the survey. (To further assist unemployed students, we included resources about our specific employment related services). 2) It is assumed the survey is more likely to be returned from unemployed graduates living at home. We cannot determine the influence of these possibilities on this survey. Our hope is that the data balances these potential factors, giving us an accurate picture and canceling out any skewed data.

SUNY Potsdam First Destination 2018

2018 Cohort
651 Undergrad Students
162 Graduate Students
7 Advanced Certificate Students

31% Response rate

Response Rate

Primary Data Source

- Clearinghouse (17.86%)
- Grad Finale (3.3%)
- Alumni Event (4.4%)
- Qualtrics Survey (10.71%)
- LinkedIn (63.74%)
