SUNY Potsdam College Libraries

Academic Libraries: Spaces of Connection

Abstract. Libraries are often thought of as physical spaces where people can study, use computers and printers, and check out the occasional book. The staff and faculty librarians of SUNY Potsdam College Libraries are here to do much more than refill the printer paper, clear paper jams, and check in and out books (though we do these things). We have services to connect faculty, students, and staff to resources for teaching, learning, and research. We also love helping students navigate their way through the research process. Join Tammy, Ed, and Jennifer for a conversation about how the team at the College Libraries can support the work you do at SUNY Potsdam. We will share some of the ways that you can partner with the library including course reserves, interlibrary loan and resource sharing, talking with librarians about curriculum support, and connecting students with library services.
