

Statewide Targeted Tuition Program for Heating, Ventilation, and Air Conditioning (HVAC)

Your Success is Our Success.

The Statewide Targeted Tuition Program for HVAC provides tuition assistance to CSEA-represented NYS employees who are pursuing a Plant Utilities Assistant (PUA) or a Plant Utilities Engineer (PUE) position. Eligible employees may receive two extra benefits per fiscal year for an engineering or HVAC related degree or educational program.

**Please Note: CSEA-represented NYS employees who participate in one of our targeted programs may receive two additional benefits each program year. If you earn more than \$5,250 in tuition benefits during a calendar year, it could be considered taxable income.*
