The purpose of staff development

*ExchangeEveryDay, June 12, 2019*

Ann Pelo and Margie Carter, in *From Teaching to Thinking*, talk about a teacher’s need to connect with what’s most important: “We believe that educators hunger for deeper meaning in their work. We believe that educators long to be challenged into their biggest, deepest, most startling thinking and questioning. We believe that educators are ready to have their hearts cracked open and their imaginations ignited.” This month we will be doing just that.
